Technical Skills

Languages/Technologies : JavaScript (React.js), HTML, CSS, Python, Artificial Intelligence
Other Skills: Video Editing, MS Excel, PowerPoint

Experience/Projects

My Portfolio: Interactive Web Portfolio
Frontend Developer

- Languages and Technologies Used: React.js, JavaScript, HTML, CSS
- Developed a responsive and interactive web portfolio using React.js to showcase personal projects, skills, and professional experience.
- Implemented dynamic routing and state management to ensure a seamless user experience.
- Utilized modern web development practices, including component-based architecture and modular CSS, to create a maintainable and scalable codebase.
- Enhanced the visual appeal and functionality using custom animations and interactive elements, improving user engagement.

Social-Media
Frontend Developer

- Languages and Technologies Used: React.js, Bootstrap, CSS, JavaScript
- Designed and implemented reusable components such as Header, Footer, SideBar, CreatePost and PostList to ensure a modular and maintainable codebase.
- Implemented user input handling and form submission in the CreatePost component, allowing users to submit new posts with user IDs, titles, content, reactions, and hashtags.
- Enhanced user interaction by implementing clickable elements for navigation and post management (e.g., adding and deleting posts).

Todo App
Frontend Developer

- Languages and Technologies Used: JavaScript, React, Bootstrap, CSS
- Developed a fully functional Todo application using React, incorporating key components such as App, AppName, AddTodo, TodoItems and WelcomeMessaage for a seamless user experience.
- Designed functionality to add and delete todo items dynamically, updating the state and re-rendering the list of items.
- Integrated user-friendly interfaces with Bootstrap for styling and React Icons for interactive buttons, enhancing the visual appeal and usability of the app
- Implemented conditional rendering to display a welcome message when there are no todo items

Myntra Clone
Frontend Developer

- Languages and Technologies Used: JavaScript, React, Bootstrap, CSS
- Created a fully functional clone of the Myntra website, replicating its core features and design
- Utilized JavaScript, React, CSS, and Bootstrap to build a responsive and interactive user interface, ensuring a seamless user experience across devices.
- Structured the application using React components for modularity and reusability, enhancing maintainability and scalability

Certficates

- HTML
- CSS
- JavaScript
- React.js
- Python
- Artificial Intelligence

Education

S.K.M.U University　　　　　　　　　　　　　　　　　　　　　　**July 2020 – Sept. 2023**
Bachelor of Arts in English Honors　　　　　　　　　　　　　　　　　　*Godda, Jharkhand*
